

Minutes GHG-Europe SC-Telecon

Thursday, 14 February 2013, 11:00 – 12:15

Astley, Axel, Dario, Nina, Enrico, Annette, You-Ren, (Anne)

Top1: EGU 2013 & Beijing CO₂-conference

EGU

Who will be there?

Astley, Dario, Lutz, Markus, Han, You-Ren, Annette, Axel

- GHG-Europe Synthesis Meetings at EGU
 - Two splinter meetings are planned during the week
 - 1) Synthesis paper on “Committed climate change (GHG emissions) due to historical land use / management” (3 h)
 - 2) General synthesis meeting: overview of key findings of the project (synthesis papers), presentations at CO₂ Conference (ICDC) in Beijing (3 h)

Meetings should be close to the GHG-Europe session BG2.11.

UPDATE:

GHG-Europe session “Attribution” (BG2.11) is on Tuesday, 9 April 2013 from 8.30 to 17.00, 4 time slots

GHG-Europe session “Soil carbon” (SSS 8.2) is (unfortunately also) on Tuesday, 9 April 2013 from 8.30 to 15.30, 3 time slots

GHG-Europe session “GHGs” (BG1.6) is Wednesday, 10 April from 10.30 to 17.00, 3 time slots

- Informal GHG-Europe dinner: Wednesday 10 April
- Meeting with conveners and speakers of the session: Evening of Tuesday, 9 April 2013
- SC-Meeting dinner → Evening of Monday, 8 April 2013

Beijing CO₂-conference

- Who is participating in the conference and is willing to represent GHG-Europe at the EU booth and the side event?
 - 2 researchers from Thünen-Institute

- 1 or 2 from VUA
- Philippe Ciaï (?) as member of the SC of the Beijing Conference
- Email to partners to request who will participate and what presentations are planned was sent on Friday, 15 February 2013 (Anne)
- **Deadline for abstract submission: 21 February 2013**

Top 2: Policy Briefing document

Deliverable D8.6b: Annual policy briefing documents of project results (Month 26, postponed)

Topic: The options of the CAP reform for mitigation of climate change → Policy Paper (2 pages) and stakeholder meeting

- Annette will ask Tasos what he thinks about a short briefing event
- Astley and Nina are willing to contribute
 - Nina sent a chapter about grassland & mitigation options
 - Astley is currently working on a government advisory for the UK government (until mid February)

2nd option: Bioenergy → hotspots of emissions

Top 3: Data for GHG-Europe synthesis

- Dario will Remind PIs to provide access to collected data via the database, especially sites that receive funding (Annette will send personnel reminders if necessary)
- Remind lead authors to respect the GHG-Europe data policy (invitation of data providers in early stage of work to contribute to publications)
- Final list of flux sites from regions is not clear → Anne will work on that

Top 4: 2nd Reporting Period

Reporting until 28 February 2013

Some deliverables still pending:

D1.2b, D5.6, D5.7, D7.8, D7.9

D1.2b

- Enrico has sent reminders to Philippe and Nicolas but got no answer
- Deliverable does not delay other tasks

D5.6 & D5.7 (Philippe and Nicolas)

- Could not be discussed

Task, 7.3, D7.8: Representation of model experiments and results in a reproducible format in the data base (month 30) & D7.9: Complete tools for assessing parameter distribution and geostatistical tools (month 30)

- Not started yet due to Martin Wattenbach leaving UNIABDN
 - Deliverable needs to be postponed as it cannot be solved until the end of this month
 - Dario, Martin, Markus and Pete need to discuss how to solve this until the end of the project
- ➔ Telecon in small group ➔ coordination team will prepare a doodle (Anne)

Task 7.3 & D7.9 change from COP to IPCC contributions

➔ IPCC contributions are collected: 11 authors responded
