#### **Deliverable description**

Results of the EU policy scenarios are publically available. The so-called LULUCF TOOL is available with the aim to provide a transparent and neutral collection of data to assess the impact of the different LULUCF accounting options currently discussed in various bodies of the EC.

To download the file, please follow these instructions:

Go to: [http://afoludata.jrc.ec.europa.eu/index.php/models/JRC\\_LULUCF\\_TOOL](http://afoludata.jrc.ec.europa.eu/index.php/models/JRC_LULUCF_TOOL). On the right side of the screen, click on "REGISTER". A window will open. Once the required information is filled in, click "submit" (IF already registered this step is NOT necessary). You will be returned to the previous page. In the sheet "Files" you can download the TOOL (the acceptance of a disclaimer will be requested at the first download, please read it carefully). Remember your username and password for subsequent logins.
